AUTHORIZED DISTRIBUTOR CERTIFICATE

As the most preferred electronic components supplier in the world, Digi-Key Corporation (Digi-Key) provides customers with genuine, manufacturer-warranted, first-quality components.

We certify that Digi-Key is a member in good-standing of ECIA (Electronic Component Industry Association), CEDA (China Electronics Distributor Alliance) and ECSN (Electronic Component Supply Network). We are certified to ISO 9001:2015, ISO 14001:2015, and ANSI/ESD S20.20 standards.

We certify that Digi-Key is a supplier-manufacturer authorized distributor and that all our products meet the following criteria:

- Obtained directly from the supplier-manufacturer or from supplier-manufacturer authorized channels
- Handled and stored in accordance with manufacturer requirements and industry quality standards set by ECIA in North America, ECSN in the United Kingdom and CEDA in China.

[ECIA](http://www.eciaonline.org) supports the expanding needs of and interests of the global supply chain. Committees within ECIA develop and maintain global standards and guidelines for the industry, assuring the delivery of quality product to international customers. The ECIA also promotes the industry, researching new processes, offering support and advocacy services for members, and helping the industry move forward successfully. www.eciaonline.org.

[CEDA](http://www.cedachina.org) founded by leading international distributors of electronic components, the CEDA was created, in partnership with the Chinese government, to serve as a link between the government sector and the electronics supply chain. The most significant function of this partnership is to promote closer cooperation between component suppliers and their distributors. CEDA allows members to collaborate to find innovative ways in which to tap into this rich resource while still adhering to government policies, regulations, and standards. The CEDA logo ensures that your components are genuine. www.cedachina.org.

[ECSN](http://www.ecsn-uk.org) are to encourage greater collaboration in the electronic components supply network through the networking of industry leaders and their organizations, to facilitate wider communications between organizations thereby improving overall market visibility and opportunity identification, whilst leveraging best industry practice to reduce costs. www.ecsn-uk.org.

Digi-Key is an active member of each of these organizations – working to reduce the risk of counterfeit products in the supply chain and ensuring that customers receive genuine products. If you have any questions please contact me directly or visit www.digikey.com.
